

Data Dictionary Name: Baseline Main Questionnaire 2

Dataset Name: df_bq2_20240124.sas7bdat; df_bq2_20240124.xlsx

Description: The baseline main questionnaire 2 contains raw participant level information on use of birth control, hormone replacement therapy, over-the-counter medications, vitamins, and supplements. It also contains information on consumption of organic foods. Please note that many of the raw data elements have been used to create preferred variables which may be found in other datasets.

Key Variables:

*Study identification number (studyid)

Use of birth control pills (bq2_bcpills)

Use of hormonal replacement therapy (bq2_hrt_bfdx)

Consumption of organic foods (bq2_orgfreq)

**primary key (use this variable to link to other datasets)*
